CANADA

UPDATED 1991:09:12

TESTING METHODS

The Tobacco Products Control Regulations require the following reference testing methods:- Smoking Machine Specifications ISO 3308.

Total and dry particulate matter ISO 4387.

Nicotine using method set out in the Association of Official Analytical Chemists Journal, 1979, Vol 62, No. 2, pp 229-236, or an equivalent method.

ADDITIVES

Information regarding permitted additives not yet available from source.

PESTICIDES

Information regarding permitted pesticides not yet available from source.

DISCLOSURE

Information regarding the requirement of disclosure to Government of additives used by manufacturers, not yet available from source.

DELIVERY SYSTEMS

Information regarding delivery systems not yet available from source.

LEAGUE TABLES

Health and Welfare Canada will publish own complete listings of condensate, nicotine and CO levels quarterly.

CONSTITUENTS LIMITS

None.

PROPOSALS

None.

BELGIUM

UPDATED 1992:01:21

TESTING METHODS

Only those reference methods given in Belgian Standards series NBN V 01., are valid for nicotine and tar testing.

NBN V 01-002 - Determination of raw condensate and alkaloid-free dry condensate in cigarette smoke - 1980.

NBN V 01-003 - Tobacco and tobacco products - Conditioning and test atmospheres - 1974.

NBN V 01-007 - Idem - Sampling - 1979.

NBN V 01-008 - Idem - Determination of alkaloids in cigarette smoke condensates - Spectrometric methods - 1980.

NBN V 01-014 - Idem - Routine analytical smoking machine for cigarettes - Definitions, standard conditions and auxiliary equipment - 1980.

Equivalent ISO-Standards 4387 and 3400.

ADDITIVES

Information regarding permitted additives not yet available from source.

PESTICIDES

Information regarding permitted pesticides not yet available from source.

DISCLOSURE

Information regarding the requirement of disclosure to Government of additives used by manufacturers, not yet available from source.

DELIVERY SYSTEMS

Information regarding delivery systems not yet available from source.

LEAGUE TABLES

Condensate and nicotine yields published unofficially in press. Test-Achats (a magazine published by the largest consumer association) publishes condensate and nicotine levels very irregularly.

CONSTITUENTS LIMITS

The authorised upper limits of tar and nicotine have been defined as follows:

Per cigarette from December 31, 1992:

Tar 15mg Nicotine 1.5mg

Per cigarette from December 31, 1997:

Tar 12mg Nicotine 1.2mg

In accordance with the European Communities (Tar Yield of Cigarettes) Regulations, 1991, effective 31 December 1992.

DENMARK

UPDATED 1992:01:21

TESTING METHODS

Tar and testing methods defined by legislation - Legal reference: Health Ministry Order June 28, 1990, with reference to sections 1-4 of Law No 426 of June 13 1990.

Tar and nicotine yields shall be measured according to the ISO standards 4387 and 3400, accuracy to be verified in accordance to ISO Standard 8243.

ADDITIVES

Information regarding permitted additives not yet available from source.

PESTICIDES

Information regarding permitted pesticides not yet available from source.

DISCLOSURE

Information regarding the requirement of disclosure to Government of additives used by manufacturers, not yet available from source.

DELIVERY SYSTEMS

Information regarding delivery systems not yet available from source.

LEAGUE TABLES

Under the legislation requiring implementation of tar and nicotine yields on cigarette packs from December 31, 1991, importers and manufacturers must also provide to Levnedsmiddelstyrelsen an annual list of the tar and nicotine content of the cigarettes they market - Legal reference: Health Ministry Order June28, 1990, with reference to sections 1-4 of Law No 426 of June 13 1990.

CONSTITUENTS LIMITS

The tar content of cigarettes marketed in Denmark shall not exceed 15mg per cigarette as from December 31, 1992 and 12mg per cigarette as from December 31, 1997, in accordance with the European Communities (Tar Yield of Cigarettes), Regulations, 1992, effective 31, December 1992.

PROPOSALS

None.

2024220246

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

FRANCE

UPDATED 1992:01:21

TESTING METHODS

Reference testing method for constituents is the French standard NFV 30-002. Equivalent ISO-Standards 4387 and 3400.

ADDITIVES

Information regarding permitted additives not yet available from source.

PESTICIDES

Information regarding permitted pesticides not yet available from source.

DISCLOSURE

Information regarding the requirement of disclosure to Government of additives used by manufacturers, not yet available from source.

DELIVERY SYSTEMS

Information regarding delivery systems not yet available from source.

LEAGUE TABLES

The results of determinations carried out by the National Test Laboratory are published in the official bulletin issued by the Ministry of Health.

CONSTITUENTS LIMITS

Arrêté du 26 avril 1991 specifies the following tar upper limits for cigarettes:- 15mg per cigarette from January 1, 1993 12mg per cigarette from January 1, 1998

In accordance with the European Communities (Tar Yield of Cigarettes) Regulations, 1992, effective 31 December 1992.

PROPOSALS

None.

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

GERMANY

UPDATED 1992:02:24

TESTING METHODS

Testing for nicotine and condensates carried out according to the following German standards:-

DIN 10 240 Part 1 "Analysis of tobacco and tobacco products; Machine smoking of cigarettes and determination of smoke condensate; Requirements for an analytical smoking machine."

DIN 10 240 Part 2 "-; Smoking Procedure".

DIN 10 240 Part 3 "-; Determination of crude condensate and nicotine-free dry smoke condensate".

DIN V 10 240 Part 4 "-; Additional requirements for cigarettes having a special filter with ventilation channels".

DIN 10 242 "Analysis of tobacco and tobacco products; Determination of alkaloids in cigarette smoke condensates; Spectrophotometric method."

ADDITIVES

Information regarding permitted additives not yet available from source.

PESTICIDES

Information regarding permitted pesticides not yet available from source.

DISCLOSURE

Information regarding the requirement of disclosure to Government of additives used by manufacturers, not yet available from source.

DELIVERY SYSTEMS

Information regarding delivery systems not yet available from source.

LEAGUE TABLES

Unofficial and occasional publication of condensate and nicotine levels.

CONSTITUENTS LIMITS

For tar yield in the smoke of one cigarette, the following maximum permissible levels are fixed: 15mg from 31 December 1992 and 12mg from 31 December 1997.

Cigarettes with a tar yield exceeding 15mg manufactured before 31 December 1992 may continue to be marketed until 31 December 1994. Cigarettes with a tar yield exceeding 12mg and up to 15mg manufactured before 31 December 1997 may continue to be marketed until 31 December 1999 - Legal reference: Ordinance Concerning the Labelling of Tobacco Products and Maximum Permissible Tar Yields in Cigarette Smoke (TabKTHmV*) 1991, effective November 1991, gives legislative effect to the provisions of the EC Directive on Labelling.

PROPOSALS

Proposed legislation pending implementation would require all tobacco products to carry constituent levels on packs. Levels would appear in accordance with percentages determined by the authorities. Legislation has been adopted at parliamentary level, but is not expected to be enacted for some time.

CANADA

UPDATED 1992:02:14

OVERALL STATUS

Restrictions relating to fire hazard and/or hygiene considerations and restrictions based on alleged health and/or annoyance factors. Depending on local legislation, a variety of restrictions may apply. Many cities now have some sort of by-law and several provinces have or are in the process of proposing legislation. See PROPOSALS.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions on all airline companies. Current federal regulations specify that flights of less than 2 hours are to be non-smoking. Smoking is prohibited on all Canadian carriers travelling to North American destinations. Air Canada prohibits smoking on domestic flights, flights to the United States and Mexico, effective since July 1988. Air Atlantic, Air Nova and Air Maritime prohibit smoking on all flights. Canadian Airlines prohibits smoking on all 66 North American flights and Wardair prohibits smoking on flights of 2 hours and 15 minutes or less.

A ban on smoking on all international flights of Canadian airline companies, which was due to become effective on July 1, 1990, will now not come into effect until July 1, 1993. The decision to defer the ban for a period of 3 years was taken in June 1990 by the Canadian Transport Minister.

Canadian carriers claim that the ban will undermine the competitiveness of the industry at a time when airlines are already facing serious economic pressures.

Despite postponement of the prohibition on smoking on all international flights of Canadian airline companies, Air Canada introduced a smoking ban on all flights between North America and Europe, operative since October 1, 1990.

All Canadian domestic carriers: The introduction of a smoking ban has been deferred until 1 July 1993, with a phased-in introduction of a 25% reduction in smoking seats per annum. The prohibition extends the existing smoking ban on domestic flights of less than 2 hours.

Canadian Airlines International: Smoking banned on flights between Toronto and Honolulu starting 7 April 1991. Smoking has been banned on all 66 North American flights since 8 September 1987. Continental Airlines, USA: Introduced an in-flight ban on the consumption of smokeless tobacco products in 1991.

Buses

Status: Smoking prohibited.

Specifications: Self-imposed and legal restrictions.

Greyhound Lines: Smoking prohibited on all Greyhound buses since June 29, 1988. Voyageur: Smoking prohibited in Quebec; service also linked to Greyhound where smoking is banned in all buses travelling across Canada. (In Quebec, the Act respecting the protection of non-smokers in certain public places (84), Loi sur la protection des non-fumeurs dans certains lieux publics, governs smoking on buses.)

Trains

Status: Restrictions.

Specifications: Self-imposed and legal restrictions. Where there is more than one type of carriage on the train, at least one of each will be designated as non-smoking; where there is only one carriage of a specific type, 70% of the space will be allocated for non-smokers, 30% for smokers.

2024220436

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Metro

Status: Smoking prohibited.

Specifications: Smoking is prohibited by legislation on the Toronto and Montreal subway system.

Ferries

Status: Restrictions.

Specifications: Marine Atlantic Coast: Smoking is permitted everywhere on board except for special non-smoking sections in the "day-nighter/chairs only" sections of ships. B.C. Ferry Corp.: Smoking prohibited in the interior of all ferries except the two on the Islands Passage and Queen Charlotte routes; excludes outside decks.

Taxis

Status: Restrictions.

Specifications: Restrictions are either self-imposed or possibly municipal. In Toronto, the driver or passenger must request permission to smoke from the other.

LEISURE

Cinemas

Status: Smoking prohibited.

Specifications: Smoking prohibited in cinemas by legislation.

Theatres

Status: Smoking prohibited.

Specifications: Smoking prohibited in theatres by legislation.

Cafes/Bars

Status: Restrictions.

Specifications: Bars in Toronto must allocate 30% non-smoking seating in accordance with city of Toronto by-law. However, restrictions depend on local by-laws.

Hotels

Status: Restrictions.

Specifications: Restrictions depending on individual policy of specific hotel or chain of hotels. Some hotels now have non-smoking floors.

Restaurants

Status: Restrictions.

Specifications: Noh-smoking sections required by many municipalities.

Sports Facilities

Status: Restrictions.

Specifications: Smoking prohibited by law in the province of Quebec except in designated areas. Restrictions vary in other provinces and municipalities.

PUBLIC PLACES

Shops

Status: Restrictions.

Specifications: Legal restrictions subsequent to municipal by-laws in some cities.

Public Meeting Facilities

Status: Restrictions.

Specifications: Prohibited by law in the province of Quebec except in designated areas. Prohibited in court houses in Ontario except in designated areas. Restrictions vary in other provinces and municipalities.

2024220437

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Education Facilities

Status: Restrictions.

Specifications: Legal restrictions subsequent to municipal by-laws. More than 45 municipalities have public smoking by-laws. Variations in terms of applicable premises. Restrictions vary according to local by-law or school board.

Health Facilities

Status: Restrictions.

Specifications: Legal restrictions subsequent to municipal by-laws or provincial legislation. More than 45 municipalities have public smoking by-laws.

Post Offices & Banks

Status: Restrictions.

Specifications: Smoking prohibited in the workplaces of Canada Post. In some buildings there are designated smoking areas. The policy varies for financial institutions.

WORKPLACE

Workplaces Private Sector

Status: Restrictions.

Specifications: The province of Ontario has prohibited smoking throughout Ontario government premises and restricted smoking in private sector workplaces to 25% of company space. However, many companies already have self-imposed restrictions in offices. In Vancouver, by-law for non-smoking areas is based on employee wishes. See PROPOSALS.

Workplaces Government Sector

Status: Restrictions.

Specifications: Most provincial governments have a smoking policy governing the public sector; the extent of the limitation varies from one province to another. See PROPOSALS.

1) The Federal Government: A Treasury Board policy took effect from January 1, 1989 prohibiting federal civil servants from smoking in the workplace.

2) Newfoundland: Since April 1, 1991, smoking is prohibited in all government buildings.

3) Nova Scotia: Since September 1990, smoking is prohibited in all government buildings.

4) Prince Edward Island: Smoking prohibited except in designated areas.

5) New Brunswick: A two-phase Management Board policy has been established aimed at banning smoking by April 1, 1989.

6) Quebec: Bill 84 (An Act respecting the protection of non-smokers in certain public places Loi sur la protection des non-fumeurs dans certains lieux publics - 1986) covers the broad public sector including hospitals and schools. The legislation bans smoking in areas used to serve the general public, though private workspace is not considered smoke-free. Ministries, departments, etc. may further restrict smoking if deemed necessary.

7) Ontario: A Management Board policy established a complete smoking prohibition effective March 31, 1989.

8) Manitoba: While smoking is generally prohibited, each ministry has its own policy regarding the designation of smoking areas.

9) Saskatchewan: While smoking is generally prohibited, each ministry has its own policy regarding the designation of smoking areas.

10) Alberta: Individual departments have established their own smoking policies.

11) British Columbia: Certain ministries have opted for their own smoking policies.

12) Yukon: Smoking is prohibited inside government buildings.

13) North West Territories: Since June 1, 1987, smoking prohibited in all government offices.

2024220438

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

PROPOSALS

The City of Ottawa has proposed a by-law requiring all employers to adopt and maintain non-smoking policy which prohibits smoking in the workplace. Employers may voluntarily designate smoking areas, providing those areas are not used for any other purpose and do not conflict with fire and ventilation regulations.

2024220439

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

UNITED STATES

UPDATED 1991:06:07

OVERALL STATUS

Restrictions based on alleged health and/or annoyance factors.

PUBLIC TRANSPORT

Airlines

Status: Legal restrictions on aircraft, variously amended in the interim, have been in effect since May 1973 - Legal reference: Smoking Aboard Aircraft, 14 C.F.R. Part 252 (1985) and Enactment of Public Law 100-202 (49/U.S.C. 2218) (1987) of December 30, 1987. New legal restrictions on tobacco smoking on nearly all scheduled airline flight segments within the United States have been in effect since February 25, 1990. Legal reference: 14 C.F.R. Parts 129 & 252.

Specifications: Smoking is prohibited on board any scheduled airline flight segment that is:

1) between any two points within an area composed of Puerto Rico, the US Virgin Islands, the District of Columbia, and the 48 contiguous states of the United States; or

2) between any two points within the State of Alaska or within the State of Hawaii; or

3) scheduled in the current Official Airline Guide (OAG) for 6 hours or less in duration and either (a) between any point in Puerto Rico, the US Virgin Islands, the District of Columbia, or any of the 48 contiguous states of the United States and any point in Alaska or Hawaii, or (b) between any point in Alaska and any point in Hawaii.

Most charter flights are exempted from the smoking ban. The maximum civil penalty for a violation of the smoking ban is $1,000 and the maximum civil penalty for violating the statutory prohibition against tampering with lavatory smoke alarms on board aircraft is $2,000.

Air Alaska, USA (State of Alaska): Introduced a smoking ban in 1st class cabins on all domestic flights on 2 October 1989.

Oklahoma City. American Smoker's Airline: Gives smokers seats in front of aircraft while non-smokers sit in rear, began operations in October 1 1991. Route is Oklahoma, Dallas and Las Vagas. A 10 dollar (US) annual membership fee is charged.

All US domestic carriers, USA: On 25 February 1990 a total ban on smoking came into force on most US domestic flights. Only flights longer than 6 hours including those to Hawaii and Alaska are excluded from the ban. This extended the previous ban on all US domestic flights of 2 hours or less. Smoking is still permitted in aircraft cockpits, although US Air voluntarily extended the ban to include cockpits on 1 January 1991.

Delta Airlines: Introduced smoking ban between US and Alaska, Canada, the Caribbean, Hawaii and Mexico on 25 February 1990.

Northwest Airlines: Introduced smoking ban between US mainland and Hawaii on 25 February 1990.

September 30 1991 United Airlines introduced "Connoisseur Class" (a business class for international travelers) in which a non-smoking section on the upper deck of 747's will be provided.

Buses

Status: Restrictions.

Specifications: Smoking prohibited on all regularly-scheduled interstate bus services by legislation since January 1991. Interstate passenger carrier vehicles: currently, the Interstate Commerce Commission (ICC) makes charters exempt and flexibility is allowed for unusual circumstances (49 C.F.R. Part 1061).

2024220440

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Trains

Status: Restrictions.

Specifications: Smoking on the various train systems is regulated by the respective transport authorities. For instance, smoking is banned on the Maryland line serving the Washington, DC area by regulation of the Maryland State Department of Transportation.

Amtrak has a comprehensive smoking policy (effective since April 1, 1990) that essentially prohibits smoking anywhere other than specifically designated "smoking cars".

Metro

Status: Restrictions.

Specifications: Smoking is regulated by the local operating authority or by local ordinances.

Ferries

Status: Restrictions.

Specifications: Smoking is regulated by the local operating authority or by local ordinances.

Taxis

Status: Restrictions.

Specifications: Smoking is regulated by taxi and limousine commissions in some areas, by state laws or local ordinances in some other jurisdictions.

LEISURE

Cinemas

Status: Restrictions.

Specifications: Smoking is generally regulated through state or local fire codes, but also on health/annoyance grounds by state laws or local ordinances. Smoking is banned in cinema seating areas in virtually all areas of the United States.

Theatres

Status: Restrictions.

Specifications: Smoking is generally regulated through state or local fire codes, but also on health/annoyance grounds by state laws or local ordinances. Smoking is banned in theatre seating areas in virtually all areas of the United States.

Cafes/Bars

Status: Restrictions.

Specifications: Smoking in cafeterias in federal buildings may be regulated by a federal agency; for instance, the General Services Administration has promulgated a regulation on smoking in all buildings it operates. In certain jurisdictions, smoking is restricted or banned by state laws, local ordinances or local Board of Health regulations. In other jurisdictions, individual proprietors may set their own policies on smoking.

Hotels

Status: Restrictions.

Specifications: Most state or local regulation of smoking is through fire codes. Some hotel chains and individual establishments have set their own smoking policies.

Restaurants

Status: Restrictions.

Specifications: Smoking in restaurants in federal buildings may be regulated by a federal agency; for instance, the General Services Administration has promulgated a regulation on smoking in all buildings it operates. In certain jurisdictions, smoking is restricted or banned by state laws, local ordinances or local Board of Health regulations. In other jurisdictions, individual proprietors may set their own policies on smoking.

Sports Facilities

Status: Restrictions.

Specifications: Smoking in some major indoor sports complexes is regulated by the operating authority. Some state laws and ordinances restrict smoking in sports facilities.

PUBLIC PLACES

Shops

Status: Restrictions.

Specifications: Smoking in public areas of retail stores is restricted by many state laws and local ordinances, and in some areas, through fire codes. In other jurisdictions, individual businesses may impose their own restrictions.

Public Meeting Facilities

Status: Restrictions.

Specifications: Smoking may be restricted by state laws and local ordinances, or through fire codes.

Education Facilities

Status: Restrictions.

Specifications: Smoking may be restricted through state laws, local ordinances, or school board policies.

Health Facilities

Status: Restrictions.

Specifications: State laws and local ordinances restrict smoking in varying degrees in some jurisdictions. Many individual hospital boards have taken action to restrict or prohibit staff and visitor smoking, and have designated smoking/non-smoking patient rooms.

Post Offices & Banks

Status: Restrictions.

Specifications: The US Postal Service regulates smoking in post offices; specific restrictive actions are left to the discretion of the local postmaster. Smoking in banks and other financial institutions may be restricted by state laws or local ordinances. In jurisdictions without such laws, individual establishments may restrict smoking voluntarily.

WORKPLACE

Workplaces Private Sector

Status: Restrictions.

Specifications: Certain state laws and local ordinances restrict smoking in private sector offices and other workplaces. Individual businesses may impose restrictions on their employees.

Workplaces Government Sector

Status: Restrictions.

Specifications: The Federal General Services Administration regulates smoking in all buildings it operates; specific policies are left to the discretion of the agency or department director. Branches of the military have adopted policies on smoking, which also apply to civilian workers. Some states and local government offices restrict smoking through executive orders, departmental policies or by-laws and ordinances.

BELGIUM

UPDATED 1991:04:24

OVERALL STATUS

Restrictions based on alleged health and/or annoyance factors and fire safety precautions - Legal references: Règlement General de la Protection du Travail, Law of January 24, 1977 and Resolution of the European Council of the Ministers of Health of July 18, 1987 on public smoking. The Royal Decree of May 15, 1990 (portant interdiction de fumer dans certain lieux publics), in force since January 1, 1991, places further restrictions on smoking in public places.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions on all airline companies, including segregation. Consequent to proposal of, or consultation with, the Supreme Health Council, smoking can be restricted or prohibited. Legal reference: Loi du 24 janvier 1977.

Sabena, Belgium: Sabena announced in July 1991 that it would not ban smoking on its flights. Fear of revenue losses from reduced passenger numbers was cited by an airline spokesperson.

Buses

Status: Smoking prohibited.

Specifications: Smoking prohibited on buses by legislation.

Trains

Status: Restrictions.

Specifications: Legislative restrictions include 70% non-smoking areas on trains. Consequent to proposal of, or consultation with, the Supreme Health Council, smoking can be restricted or prohibited - Legal reference: Loi du 24 janvier 1977.

Metro

Status: Smoking prohibited.

Specifications: Smoking prohibited on the metro system by legislation.

Ferries

Status: Restrictions.

Specifications: Smoking on ferries prohibited except in specifically designated smoking areas. Consequent to proposal of, or consultation with, the Supreme Health Council, smoking can be restricted or prohibited - Legal reference: Loi du 24 janvier 1977.

Taxis

Status: Smoking prohibited.

Specifications: Smoking prohibited, except for drivers when vehicle does not carry passengers - Legal reference: 2 avril 1975. Arrêté royal portant règlement de police relatif à l'exploitation des services de taxis and Loi du 24 janvier 1977.

LEISURE

Cinemas

Status: Smoking prohibited.

Specifications: Smoking prohibited in cinemas by legislation. However, smoking may be permitted in specifically designated areas (outside of the main screening area) at the discretion of the management.

2024220445

Theatres

Status: Smoking prohibited.

Specifications: Smoking prohibited in theatres by legislation. However, smoking may be permitted in specifically designated areas (outside of the main auditorium) at the discretion of the management.

Cafes/Bars

Status: Restrictions.

Specifications: Smoking is prohibited in any enclosed, publicly accessible building by legislation. However, management is free to reserve clearly and strictly delimited areas for smokers. Where there are specifically designated smoking areas, these should not exceed two-thirds of total available space. Smoking areas should be equipped with ventilators or smoke extractors in order to reduce "smoke annoyance" for non-smokers. Non-smoking areas should be indicated with a sign.

Hotels

Status: Restrictions.

Specifications: Smoking is prohibited in any enclosed, publicly accessible building by legislation. However, management is free to reserve clearly and strictly delimited areas for smokers. Where there are specifically designated smoking areas, these should not exceed two-thirds of total available space. Smoking areas should be equipped with ventilators or smoke extractors in order to reduce "smoke annoyance" for non-smokers. Non-smoking areas should be indicated with a sign. The Royal Decree does not apply to hotel rooms.

Restaurants

Status: Restrictions.

Health Facilities

Status: Restrictions.

2024220446

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Specifications Generally, smoking is prohibited in all health facilities by legislation, except where specifically designated smoking areas are made available. Smoking prohibited in areas in rooms where food and drinks are served and which are part of premises intended for health care. The waiting rooms for smokers and the authorisation to smoke in rooms where food or drinks are served is left to discretion of management.

Post Offices & Banks

Status Restrictions.

Specifications Smoking is prohibited in any enclosed, publicly accessible building by legislation. However, management is free to reserve clearly and strictly delimited areas for smokers.

WORKPLACE

Workplaces Private Sector

Status Restrictions.

Specifications Existing restrictions are largely self-imposed, although legal restrictions apply on grounds of fire risk, hygiene considerations and alleged health risk. Restrictions in premises where food is manufactured or stored. Restrictions in premises employing over 50 persons.

Workplaces Government Sector

Status Restrictions.

Specifications Existing restrictions are both self-imposed and legislative. Government workplaces have largely self-imposed smoking restrictions. Restrictions in premises where food is manufactured or stored. Restrictions in premises employing over 50 persons.

PROPOSALS

The Minister of Employment is seeking to enact new regulations in all workplaces, both public and private.

GERMANY

UPDATED 1992:01:27

OVERALL STATUS

Restrictions based on alleged health and/or annoyance factors.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions on all airline companies since 1978. Non-smoking areas average 70%. In October 1989, Lufthansa began a 6-month trial smoking ban on short haul domestic flights from Dusseldorf to Stuttgart and Nuremburg to Cologne. The trial ban ended on March 31, 1990. Lufthansa subsequently dropped plans to ban smoking on all domestic flights. The airline stated that a ban could lead to polarization and confrontation among passengers.

Lufthansa, Germany: Under pressure from smokers and the media, Lufthansa abandoned its plans to introduce a smoking ban on domestic flights. The ban was set to be introduced in October 1990 following a 6-month no-smoking trial.

Aero Lloyd: Total ban on internal flights since 26 March 1990. Aero Lloyd is a Frankfurt-based private airline.

Buses

PROPOSALS

A modification of the National Health Service law proposes a smoking prohibition in all hospitals and doctors' waiting rooms.

A draft bill presented by the Health Minister, 28 December 1991, proposes to extend smoking prohibition to public and private workplaces, bars, restaurants, hospitals, schools, trains and airplanes. The bill allows for segregration in bars and restaurants and specific areas set aside for smokers in workplaces, providing that appropriate ventilation and air-conditioning systems are installed within three years of the bill's enactment.

Bills pending at the Social Affairs Committee of the Chamber of Deputies propose extending public smoking restrictions already existing under Law 584 of 1975.

No action on the legislation is expected in the near future as the Italian Parliament will be dissolved at the end of January, prior to elections.

PORTUGAL

UPDATED 1991:06:07

OVERALL STATUS

Restrictions based on alleged health and/or annoyance factors.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

TAP: Smoking ban has been in operation since 1 May 1987. Ban does not extend to Madeira and Azores routes.

Buses

Status: Restrictions.

Specifications: Smoking prohibited in vehicles intended for urban, suburban and interurban public transport, or for tourism or hired transport for trips that last less than one hour. This includes road, railway and fluvial transport.

For trips that last more than one hour, smoking is permitted for passengers who are seated in the last three rows of the vehicle. This area can be enlarged up to a third of the total seating if the vehicle is equipped with a ventilation device. Legal references: Law No. 226/83 of May 27, 1983; Law No 393/88 of November 8, 1988.

Trains

Status: Restrictions.

Specifications: Smoking prohibited in vehicles intended for urban, suburban and interurban public transport, or for tourism or hired transport for trips that last less than one hour. This includes road, railway and fluvial transport.

For train trips that last more than one hour, a part of the train can be designated for smokers. The places will not, however, exceed more than half of the cars. Because of lack of adequate equipment, smoke should not spread to the cars where non-smokers are seated. Legal references: Law No. 226/83 of May 27, 1983 and Law No 393/88 of November 8, 1988.

Metro

Status: Restrictions.

Specifications: Smoking prohibited in vehicles intended for urban, suburban and interurban public transport, or for tourism or hired transport for trips that last less than one hour. This includes road, railway and fluvial transport.

For train trips that last more than one hour a part of the train can be designated for smokers, but the places will not exceed more than half of the cars. Because of lack of adequate equipment smoke should not spread to the cars where non-smokers are seated. Legal references: Law No. 226/83 of May 27, 1983 and Law No 393/88 of November 8, 1988.

SPAIN

UPDATED 1992:01:27

OVERALL STATUS

Restrictions relating mainly to alleged health and/or annoyance factors and restrictions based on fire hazard and hygiene considerations. In north eastern Spain, the Catalonian parliament has recently implemented legislation modifying Ley 20/1985, which places further restrictions on smoking in public places - Legal reference: Ley 10/1991 of May 10, 1991.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Legal restrictions on all airlines since April 1983 - Legal reference: Real Decreto 709/1982 March 5, 1982/BOE April 15, 1982. A minimum of 25% of total seating to be designated as a non-smoking area.

Buses

Status: Restrictions.

Specifications: By legislation, on public transport means where only seated passengers are admitted, a grouped area of less than 50% of total seating will be reserved for smokers. This seated area shall be situated in the rear of the vehicle. An absolute prohibition of smoking will exist on public transport where passengers are required to stand. Smoking prohibited on all urban transport in Catalonia.

Trains

Status: Restrictions.

Specifications: By legislation, an area equal to, or less than, 50% of the total seating area of each carriage or berth shall be reserved for smokers. Smoking prohibited on all urban transport in Catalonia.

Metro

Status: Smoking prohibited.

Specifications: Smoking prohibited on the metro system by legislation.

Ferries

Status: Restrictions.

Specifications: By legislation, on vessels where only seated passengers are admitted, a minimum of 25% of total seating to be designated as a non-smoking area. Smoking prohibited on urban transport in Catalonia.

Taxis

Status: Restrictions.

Specifications: Local authorities may establish their own prohibition on smoking in taxis belonging to their municipality. In the absence of a rule to that effect, the right of the non-smoker will prevail.

LEISURE

Cinemas

Status: Restrictions.

Specifications: By legislation, smoking permitted only in designated smoking areas in cinemas. Smoking prohibited in cinemas in Catalonia.

2024220471

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Theatres

Status: Restrictions.

Specifications: By legislation, smoking permitted only in designated smoking areas in theatres. Smoking prohibited in theatres in Catalonia.

Cafes/Bars

Status: No restrictions.

Specifications: None.

Hotels

Status: No restrictions.

Specifications: None.

Restaurants

Status: No restrictions.

Specifications: None.

Sports Facilities

Status: Restrictions.

Specifications: By legislation, smoking permitted only in designated areas in sports facilities. The IOC prohibits smoking in arenas, stadia hosting events in the 1992 Olympics.

PUBLIC PLACES

Shops

Status: No restrictions.

Specifications: None.

Public Meeting Facilities

Status: Restrictions.

Specifications: By legislation, smoking permitted only in designated areas in public meeting facilities.

Education Facilities

Status: Restrictions.

Specifications: By legislation, smoking permitted only in areas expressly reserved for that purpose. Smoking prohibited in schools in Catalonia.

Health Facilities

Status: Restrictions.

Specifications: By legislation, smoking permitted only in designated areas in health facilities. Smoking prohibited in hospitals in Catalonia.

Post Offices & Banks

Status: Restrictions.

Specifications: By legislation, smoking prohibited in any public administration office area intended for direct service of the public.

WORKPLACE

Workplaces Private Sector

Status: Restrictions.

2024220472

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Specifications By legislation, smoking shall be prohibited in any area where "there is a major risk to the worker's health because of the combination of the harmfulness of tobacco with the damage caused by industrial pollutants". Smoking prohibited in any area where pregnant women are employed. Management is entitled to issue restrictions by legislation on safety, fire hazard, etc. Smoking prohibited in any area where foods are manufactured, processed, prepared or sold, except in those areas intended mainly for consumption of same.

Workplaces Government Sector

Status Restrictions.

Specifications By legislation, smoking prohibited in any public administration office area intended for direct service of the public.

PROPOSALS

Proposals pending at national level.

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000 SISB/29-03/92

UNITED KINGDOM

UPDATED 1991:05:21

OVERALL STATUS

Restrictions relating to fire hazard and/or hygiene considerations. A proposal to prohibit smoking in public places was introduced in May 1990 but was subsequently rescinded due to lack of support.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions on all airline companies since mid-1970s. Smoking prohibited on Logan Air since 1979 and Air UK and Paramount Airways flights (since the company started up in March 1987). Ban on British Airways internal flights since October 30 1988. Guernsey Airlines reversed its non-smoking policy in 1989.

Virgin Atlantic: Smoking ban on 4 weekly flights between Newark and Gatwick since 18 May 1990. Also, in-flight duty free sales of tobacco and in-flight tobacco advertising banned (NB see note below).

Virgin Atlantic: In December 1990 Virgin Atlantic abandoned its experimental smoking ban on transatlantic routes between London's Gatwick Airport and Newark, New Jersey. In explaining the policy reversal, Virgin said that it had not received the expected number of passengers requesting the non-smoking flights. Virgin had made its non-smoking flights the focus of a press advertising campaign.

Capital Airlines: Smoking prohibited on scheduled flights since January 1990.

Buses

Status: Restrictions.

Specifications: By-laws governing the operation of Transport Authority prescribe no smoking regulations on buses. Smoking prohibited on all London double decker buses since February 14, 1991. West Midlands implemented a complete smoking prohibition on all its bus services in April 1991.

Trains

Status: Restrictions.

Specifications: Smokers and non-smokers segregated. By-laws governing the operation of Transport Authority prescribe no smoking regulations on trains. British Rail implemented a complete smoking prohibition on all trains covering a 30-mile radius of London in May 1990.

Metro

Status: Smoking prohibited.

Specifications: Smoking is prohibited on London underground (metro) system.

Ferries

Status: Restrictions.

Specifications: Segregation of smokers and non-smokers. P & O Shipping operates a smoking prohibition on all overnight sailings.

Taxis

Status: Restrictions.

Specifications: Most drivers have self-imposed restrictions.

2024220474

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

LEISURE

Cinemas

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard. Most cinemas have a self-imposed ban on smoking within the auditorium.

Theatres

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard. Most theatres and opera houses have a self-imposed ban on smoking within the auditorium.

Cafes/Bars

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard and on the basis of hygiene considerations. Self-imposed restrictions in some pubs.

Hotels

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard and on the basis of hygiene considerations. Self-imposed restrictions in some hotels.

Restaurants

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard and on the basis of hygiene considerations. Self-imposed restrictions in some restaurants, including segregation.

Sports Facilities

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard. Self-imposed restrictions in some sports premises for reasons of fire risk or hygiene considerations.

PUBLIC PLACES

Shops

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard. Self-imposed restrictions in all food shops.

Public Meeting Facilities

Status: No restrictions.

Specifications: None.

Education Facilities

Status: No restrictions.

Specifications: None.

Health Facilities

Status: Restrictions.

Specifications: Legal restrictions in areas of fire hazard. Self-imposed restrictions in some hospitals and health centres.

Post Offices & Banks

AUSTRALIA

UPDATED 1991:06:19

OVERALL STATUS

Restrictions relating to fire hazard and/or hygiene considerations and restrictions based on alleged health and/or annoyance factors. Federal government offices and private employers are either in the process of implementing, or have implemented, smoking prohibitions or restrictions.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions on all airline companies since 1978. Smoking prohibited on all domestic flights since December 1, 1987. Non-smoking seating 75% on Qantas Airlines international flights. Following a 3-month trial smoking ban on internal flights, Qantas decided not to prohibit smoking on any of its short-haul flights. Qantas operated a smoke-free flight 4 days a week between Sydney and Auckland.

Qantas introduced a 3-month trial smoking ban in April 1989 on Australia to New Zealand route. The ban was subsequently retained only on days when there is more than one flight operating.

Since September 1990, smoking has been prohibited on all international carriers flying within Australia.

Buses

Status: Restrictions.

Specifications: Smoking prohibited on all government-owned buses. Self-imposed restrictions on private buses. Smoking prohibited on private buses in Queensland. Self-imposed restrictions on private buses in other states.

Trains

Status: Restrictions.

Specifications: Smoking prohibited on suburban trains. Segregation in operation on longer distance trains.

Metro

Status: Smoking prohibited.

Specifications: Smoking prohibited on the metro system.

Ferries

Status: Restrictions.

Specifications: Smoking prohibited on all government-owned ferries (except on outside deck).

Taxis

Status: Restrictions.

Specifications: Smoking in taxis is prohibited in Victoria under the Tobacco Control Act. Elsewhere, each state imposes its own restrictions.

LEISURE

Cinemas

Status: Smoking prohibited.

Specifications: Smoking prohibited in cinemas.

NEW ZEALAND

UPDATED 1992:01:15

OVERALL STATUS

Restrictions based on alleged health and/or annoyance factors. Since the Smoke-free Environments Act 1990, effective since December 16 1990, smoking restrictions operate in most workplaces, indoor public areas and restuarants.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Ansett: Smoking prohibited on all domestic flights as of 1 October 1988.

Air New Zealand: Smoking prohibited on all domestic flights as of 1 October 1988.

The Smoke-free Environments Act 1990 prohibits smoking on all domestic flights within New Zealand. Self-imposed segregation on all international flights.

Buses

Status: Smoking prohibited.

Specifications: Under the Smoke-free Environments Act 1990 smoking is prohibited on all "passenger service vehicles". Smoking may be permitted, however, in "small vehicles" when the driver and every passenger in the vehicle agree.

Trains

Status: Restrictions.

Specifications: Under the Smoke-free Environments Act 1990, smoking is prohibited in any enclosed area that is normally used by passengers and which is not designated as a smoking area.

Metro

Status: There is no metro system in New Zealand.

Specifications: None.

Ferries

Status: Restrictions.

Specifications: Under the Smoke-free Environments Act 1990, smoking is prohibited in any enclosed area that is normally used by passengers and which is not designated as a smoking area.

Taxis

Status: Restrictions.

Specifications: Where restrictions exist, they are self-imposed.

LEISURE

Cinemas

Status: Restrictions.

Specifications: Self-imposed restrictions in cinemas based on fire risk, cleanliness and damage risk. Legislative restrictions following implementation of Smoke-free Environments Act - see section on WORKPLACES for details of restrictions on smoking at the workplace.

Theatres

Status: Restrictions.

Specifications: Self-imposed restrictions in theatres based on fire risk, cleanliness and damage risk. Legislative restrictions following implementation of Smoke-free Environments Act - see section on WORKPLACES for details of restrictions on smoking at the workplace.

2024220550

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Cafes/Bars

Status: Restrictions.

Specifications: In premises where seating is set aside for the consumption of food by patrons, the licensee shall ensure that at least half of the seating is designated for persons who do not wish to smoke. Signs indicating a no smoking area shall be prominently displayed.

Hotels

Status: Restrictions.

Specifications: Restrictions relating to introduction of Smoke-free Environments Act 1990 - see section on WORKPLACES for details of restrictions on smoking at the workplace.

Restaurants

Status: Restrictions.

Specifications: Under the Smoke-free Environments Act 1990, restaurateurs shall ensure that at least half of the seating in the premises is designated for non-smokers and shall prominently display signs accordingly. Where more than one room is set aside for the consumption of food, the restaurateur shall designate at least one room for patrons who do not wish to smoke and will prominently display signs accordingly.

Sports Facilities

Status: Restrictions.

Specifications: Self-imposed restrictions in enclosed sports stadia based on fire risk, cleanliness and damage risk. Legislative restrictions following implementation of the Smoke-free Environments Act 1990 - see section on WORKPLACES for details of restrictions on smoking at the workplace.

PUBLIC PLACES

Shops

Status: Restrictions.

Specifications: Legislative restrictions following implementation of the Smoke-free Environments Act 1990 - see section on WORKPLACES for details of restrictions on smoking at the workplace.

Public Meeting Facilities

Status: Restrictions.

Specifications: Self-imposed restrictions in a few meeting rooms based on fire risk, cleanliness and damage risk. Legislative restrictions following implementation of the Smoke-free Environments Act 1990 - see section on WORKPLACES for details of restrictions on smoking at the workplace.

Education Facilities

Status: Restrictions.

Specifications: Legislative restrictions following implementation of the Smoke-free Environments Act 1990 - see section on WORKPLACES for details of restrictions on smoking at the workplace.

Health Facilities

Status: Restrictions.

Specifications: Self-imposed restrictions in health care premises based on fire risks, cleanliness and damage risk. Legislative restrictions following implementation of Smoke-free Environments Act - see section on WORKPLACES for details of restrictions on smoking at the workplace.

Post Offices & Banks

Status: Restrictions.

2024220551

Source: https://www.industrydocuments.ucsf.edu/docs/jjbl0000

Specifications Legislative restrictions following implementation of the Smoke-free Environments Act 1990 - see section on WORKPLACES for details of restrictions on smoking at the workplace.

WORKPLACE

Workplaces Private Sector

Status Restrictions.

Specifications Following enactment of the Smoke-free Environments Act 1990 (December 16, 1990), employers are bound to have a writtten policy on smoking in each workplace. Every written policy shall include the provision that smoking shall not be permitted in lifts or in office areas where more than one person works in a common air space; in at least half of the total area of any cafeteria or lunchroom at the workplace; in any part of the workplace to which the public normally has access.

Workplaces Government Sector

Status Restrictions.

Specifications Following enactment of the Smoke-free Environments Act 1990 (December 16, 1990), employers are bound to have a written policy on smoking in each workplace. Every written policy shall include the provision that smoking shall not be permitted in lifts or in office areas where more than one person works in a common air space; in at least half of the total area of any cafeteria or lunchroom at the workplace; in any part of the workplace to which the public normally has access. Many government agencies have been designated as totally smoke-free.

PROPOSALS

A Draft Bill amending the Protection of Health (Control of Smoking) Law of 1980 and subsequent amendments has been tabled in Cyprus. The Bill would expand the existing definition of public places where smoking is prohibited to include waiting rooms and public service areas in banks, government and semi-government offices, as well as enclosed swimming pools, enclosed sports grounds and enclosed gymnasia. The Bill would make criminally liable any owner of a public place where smoking is prohibited if "any person is reported to smoke in that place".

ARGENTINA

UPDATED 1991:06:19

(No notification of any change to information since February 1989.)

OVERALL STATUS

Restrictions relating to fire hazard and/or hygiene considerations and restrictions based on alleged health and/or annoyance factors. Since 1987, there have been numerous proposals aimed at prohibiting smoking in public places and government offices, mainly at provincial and municipal level.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions on all airline companies since 1976, mainly segregation, although there is a proposal pending for a complete smoking prohibition on domestic flights.

Buses

Status: Restrictions.

Specifications: Smoking prohibited in general but, in practice, not strictly enforced on long-distance buses. The Province of Buenos Aires - Legal reference: 10,600, and the Province of Mendoza - Legal reference: 5.374 - prohibit smoking on public transport. Proposals currently pending at national, provincial and municipal levels to prohibit smoking on public transport.

Trains

Status: Restrictions.

Specifications: Restrictions requiring the provision of smoking and non-smoking carriages on trains. The Province of Buenos Aires - Legal reference: 10,600, and the Province of Mendoza - Legal reference: 5.374 - prohibit smoking on public transport.

Metro

Status: Smoking prohibited.

Specifications: Smoking prohibited on the metro system.

Ferries

Status: No restrictions.

Specifications: None.

Taxis

Status: Restrictions.

Specifications: Self-imposed restrictions in some taxis in Argentina. Legal restrictions in taxis in Buenos Aires in practice, but not strictly enforced - Legal reference: City of Buenos Aires Ord. Mun. No. 43.001.

LEISURE

Cinemas

Status: Smoking prohibited.

Specifications: Smoking prohibited in cinemas.

Theatres

Status: Smoking prohibited.

Specifications: Smoking prohibited in theatres.

BRAZIL

UPDATED 1991:05:14

OVERALL STATUS

Restrictions relating to fire hazard and restrictions based on alleged health and annoyance factors. Restrictions subsequent to state and municipal laws. (Note: Brazil has more than 4,000 municipalities.)

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Smoking prohibited on all aircraft carrying up to 20 passengers. Legal reference: Resolution of the Civil Aeronautics Board of 1986. Further restrictions were implemented on August 23, 1988 by the Sub department of the Civil Aeronautics Board (DAC). Legal reference: No. 3.053-1 21 of August 23, 1988. These restrictions came into effect on November 30, 1988.

Domestic flights: An intended Health Ministry prohibition of smoking on all domestic flights was lifted in 1990 by the Superior Court of Justice in Brazil on the grounds that the Health Ministry had exceeded its mandate in declaring an in-flight smoking prohibition. Segregation between smokers and non-smokers on domestic flights will continue.

Rio-São Paulo air shuttle: Left side and rear of aircraft, total 41 seats for smokers, and on the right side, total 49 seats for non-smokers - Legal reference: Portaria No. 348 of June 31, 1986. On the rest of domestic flights: Voluntary segregation 50% smoking and 50% non-smoking. The same concept is applied to international flights.

Buses

Status: Restrictions.

Specifications: Smoking prohibition subsequent to state and municipal laws in some states and municipalities.

Trains

Status: Restrictions.

Specifications: Smoking prohibited on São Paulo railroad FEPASA. Legal reference. Law No. 110 of June 25, 1973.

Metro

Status: Restrictions.

Specifications: Self-imposed restrictions on Rio and São Paulo metro system.

Ferries

Status: Restrictions.

Specifications: Restrictions including segregation, subsequent to state and municipal laws in some states and municipalities.

Taxis

Status: Restrictions.

Specifications: Public smoking regulations of varying scope and severity enacted by state and municipal governments.

LEISURE

Cinemas

Status: Restrictions.

2024220608

HONG KONG

UPDATED 1992:01:21

OVERALL STATUS

Restrictions relating to fire hazard and/or hygiene considerations and restrictions based on alleged health and/or annoyance factors.

PUBLIC TRANSPORT

Airlines

Status: Restrictions.

Specifications: Self-imposed restrictions by airlines requiring flexibility in designation of non-smoking seating, depending on number of passengers requiring non-smoking seating.

Since June 1, 1990, Cathay Pacific has banned smoking on all short-haul flights within South East Asia (including those to Manila, Singapore, Jakarta, Penang and Kuala Lumpur, amongst others). The ban will also extend to Cathay Pacific flights to Dubai and Bombay. Beginning April 1992, the airline will introduce a smoking prohibition on flights between Australia and Hong Kong for a three-month trial period.

China Airlines operates a once-daily non-smoking flight between Hong Kong and Taipei.

Smoking prohibition on Dragonair flights to Haikou and Guilin (China) effective since August 1990.

Singapore Airlines has extended its non-smoking policy to include all flights of 4 hours or less, including flights departing from Hong Kong. Prohibition effective since October 28, 1990.

Dragon Airlines: Dragon Airlines began a 6-month non-smoking trial on flights between Hong Kong and Xiamen (China) on 1 June 1990. Bans were introduced between Haikou and Guilin in July/August 1990.

Buses

Status: Smoking prohibited.

Specifications: Smoking prohibited on single-deck public road transport vehicles and on the upper decks of double-decker buses and trams. The driver shall not smoke in or on the vehicle when it has passengers on board or during a journey (Public Bus Service Regulations). Legal reference: Smoking (Public Health) Ordinance 1982.

Trains

Status: Smoking prohibited.

Specifications: Smoking prohibited on trains by legislation since January 1, 1985. Legal reference: Smoking (Public Health) Ordinance 1982.

Metro

Status: Smoking prohibited.

Specifications: Smoking prohibited on metro system by legislation. Legal reference: Smoking (Public Health) Ordinance 1982.

Ferries

Status: Restrictions.

Specifications: Non-smoking areas of at least 50% of each class of seating area. Management is empowered to prohibit smoking in all seating. Legal reference: Smoking (Public Health) Ordinance 1982.

Taxis
